

Compatible with Flat Panels, Troffers & Commercial Strips

**Available in 15W, 25W & 40W /
100-347V**

0/1-10V Dimmable

EBE Series Emergency Battery Pack

**5YEAR
WARRANTY**

The EBE Emergency Battery Pack provides light fixtures with power during a power outage. It's designed to be field mounted for new construction or retrofit installations.

Key Features & Benefits

- 100-347V
- Field installable
- Wall plated test switch
- Dry and wet location test switch options
- Self-testing
- 90 minute discharge
- Dimmable
- Compatible with Flat Panels, Troffers & Commercial Strips
- Over-voltage, over-current, short-circuit, open-circuit, over discharge, and over temperature protection

WHY CHOOSE THIS EMERGENCY BATTERY?

FIELD INSTALLABLE

Designed to be field mounted for new construction or retrofit installations. Compatible with any 100-347V driver that has 0/1-10V dimming leads

TESTING

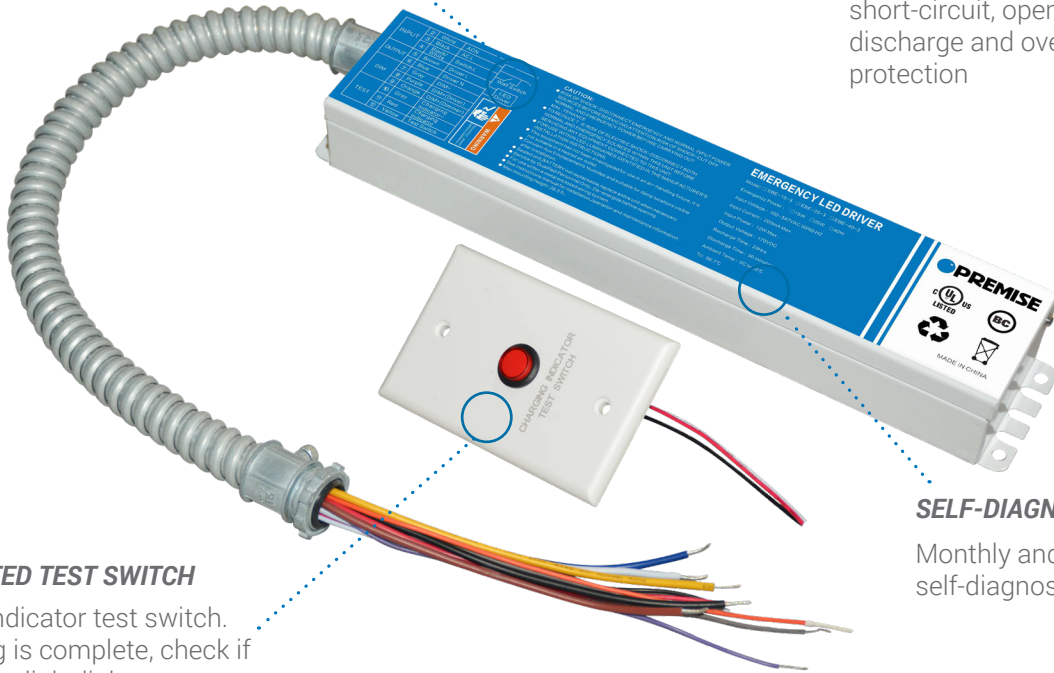

Over-voltage, over-current, short-circuit, open-circuit, over discharge and over temperature protection

SELF-DIAGNOSTIC

Monthly and annual self-diagnostic testing

WALL PLATED TEST SWITCH

Charging indicator test switch. After wiring is complete, check if the indicator light lights or not, which will indicate the battery's charging situation.
